Dear Sirs

I wish to object to the planning application for 63 houses on land at north of Station Road, Market Bosworth by Richborough Estates.

This goes against all the wishes of the local community and conflicts with the Neighbourhood Plan already approved for houses south of Station Road. The local facilities and amenities in the town cannot cope with more development than already planned.

We have been asked as a community to approve planning for houses. We have spent many years developing a plan with consultation across all parts of the community. The approved Neighbourhood Plan fulfills the need for more houses in the local area. The Richborough Estates plan undermines the principles of the community led plan and should not be approved.

Yours faithfully
Caroline and Simon Paul
